Description

Description:

VIŠNJAN, ISTRIA - Istrian stone house with a swimming pool in a soothing location near Višnjan. The soothing location and a beautiful example of a real Istrian stone house from the 1950s create a real feeling of home warmth. The complete renovation started in 2024, the renovation also includes the reorganization of the interior rooms in order to get more open space and better organization for easier use. The exterior cladding of the house is originally made of stone, which is a great detail, and perfectly connects the house with the natural environment that surrounds it. The small town located between Višnjan and Tinjan is known for its quiet location where the local population predominates, family vacation homes, and because of its well-developed, close proximity to tourist towns and centers, it is becoming an increasingly interesting target for foreigners. The house has a total of 140.69 m² distributed on the ground floor and 1st floor. The ground floor is an open area of the kitchen, dining room and living room with direct access to the terrace with an airy pergola in front of the pool, where the breeze will circulate perfectly on warm summer days, ensuring freshness. There is also a bathroom and a laundry room on the ground floor. Stairs lead to the 1st floor of the house, where there are 3 bedrooms. One bedroom has its own wardrobe and a separate bathroom, while the other two rooms share one bathroom. The yard and the entire property is decorated with a beautiful natural decor, a tree several hundred years old, it is speculated that it is an 800-year-old tree whose crowns create natural shade and circulation of fresher air in the summer months. In addition to the 24.50 m² swimming pool, there is also an outdoor grill where you can enjoy with family and friends. A beautiful example of an original Istrian house, looking for a new owner.
