Description

Description:

ISLAND OF KRK, BAŠKA - Beautiful semi-detached house with partial sea view in a fantastic location Beautiful semi-detached house with partial sea view in a fantastic location, spread over 120m², on two floors. On the first floor there is a spacious living room, kitchen and guest toilet. On the upper floor there are three beautifully decorated bedrooms and two bathrooms. The living room opens onto a beautifully landscaped garden of 120m² which houses a heated pool, stone barbecue and solar shower. The house is nicely furnished, has underfloor heating on the ground floor and air conditioning on the first floor. There are two parking spaces in the yard. Quality materials were used in the construction and the houses are well insulated. Great shopping option for rent. The property is in the VAT system. The Baška area in the southeast of the island is exceptional in some respects. When we climb up the Puntarska draga and cross the slopes of Treskavac at about 330 m, with the highest peaks of the island (Obzova, about 570 m) and suddenly and abruptly find ourselves in front of the Baška valley, we are surprised, almost out of breath. Because we were not prepared for such a game of nature, a combination of mountains and sea. Right here, around 1100, the baptismal certificate of the Croats - Baška tablet - was written. Baška is also recognizable by one of the largest and most beautiful pebble beaches on the Adriatic, with a semicircular length of more than 1,800 meters. Naturally fine sand especially allows non-swimmers and children to enjoy the beach, as the depth of the sea gradually increases. Like other places in Krk, in the old part of this place there are narrow streets, houses close to each other so the atmosphere is typical Mediterranean. Apart from the beautiful beach, Baška is interesting for its characteristic architecture, numerous cultural and historical monuments and the surrounding excursion trails. The long and beautiful Baška beach, equipped with numerous leisure opportunities, is one of the most important reasons for coming; the beauty of the place you will walk through is like reading a textbook of coastal architecture, too. In Baška, as in a place "at the end of the world", there are opportunities for boat trips to other islands (uninhabited Prvić, nearby Grgur and Goli, and to the nearby mainland (Senj).
