Description: ISTRIA, POREČ - Land with building permit Bathed in a pleasant Mediterranean climate, located in the heart of the western Istrian coast, the ancient town of Poreč and its coastline of preserved natural beauty, landscaped parks, pine and oak groves that reach the sea itself, along which clear sea, beaches, bays and islands are spread over area of 139 km² and consists of 58 settlements. With the identity of an urban coastal city, Poreč is a city of culture, sports, entertainment, tourism and genuine hospitality. One of the most attractive cities of Croatian tourism that uniquely combines the natural beauty of Istria, rich cultural and historical heritage and the most modern amenities of a top tourist destination. The harmony of the old town core, which is a cultural monument, with one of the most famous Istrian cultural monuments, the Euphrasian Basilica, which is on the UNESCO World Heritage List, and the most organized and best equipped tourist resorts on the Adriatic forms a mosaic of unforgettable experiences. Poreč is also a city that is much more than a summer destination of sun and sea. Poreč is a city tailored to man. A city where there is a constant impulse for better living conditions and greater progress in various spheres. A city that is a pleasant, safe and

well-organized place to live where everyone can find their place, a city without surcharges with high social sensitivity for all generations. Not far from the city of Poreč, there is a plot of land for sale with a building permit. The building plot is located in a gentle settlement with a panoramic view of the sea and the surrounding area and offers a perfect balance of rural surroundings and proximity to the sea and urban facilities. The cadastral parcel has a relatively regular rectangular shape, the terrain is gently sloping and clean, and the electricity, water supply and electronic communication infrastructure is located near the land. The land has a valid building permit for the construction of a residential building with a swimming pool, which does not disturb the environment with its architecture, but creates a synergy between the natural environment and modern design. It was designed as a comfortable detached house with one residential unit that extends through the ground floor and the first floor. Due to its microlocation, configuration, proper ownership and documentation, this land offers an exceptional opportunity to build a family home or vacation home.
