return on investment. DESCRIPTION OF THE APARTMENT: The apartment is located on the 1st floor of the building, and consists of a total of 80 m², and has a parking space and a storage room on the ground floor of the building. Upon entering the apartment, we are greeted by a small lobby that is directly connected to the living area of the "open space" concept apartment. Here is the kitchen, then a spacious dining room, and a comfortable living room. We must certainly highlight the good orientation of the apartment towards the sun and the high-quality organization of the rooms inside the apartment. Every room is full of daylight, which affects the special feeling during the stay in the apartment. Next to the living room, there is a sliding glass wall with the help of which you can access a larger covered terrace, ideal for spending time with friends and family. On the spacious terrace there is a jacuzzi and a sauna that complete the perfection of this apartment. In the private part of the apartment there are two bedrooms, one of which is a master bedroom with its own bathroom, and in the other part there is another bedroom and a bathroom. The apartment is heated using underfloor heating and an electric fireplace in the living room. The apartment is sold with all furniture, and due to its appearance and quiet location, we think it is perfect for starting a family life or as a return on investment for the purpose of renting out for tourist purposes.
