Description

Description:

TOP INVESTMENT IN THE HEART OF RIJEKA! This apartment of 133 m² has been completely renovated, and has new carpentry, floating floors, lighting, imaginatively lowered ceilings, renovated bathroom, and everything you need to move into your property very quickly! The arrangement is such that the connection between the rooms can be used, but everything can also be separated, just by closing the door, so that each room, of which there are 4, would be separate. Depending on the buyer's wishes, this area can be used as one residential unit, but also, two or even three apartments can be designed on this area. If you are looking for a position in the city where you will not need your car, once parked, then this is a wonderful property with many possibilities. Due to its large windows, there is really enough light. Large air conditioners are sufficient to maintain a good temperature in the space, and the apartment itself is supplied with city gas. The doors are anti-burglary, there is an intercom on the ground floor, and security is guaranteed. The roof is new, and the staircase is very wide and well maintained. **EXCELLENT PROPERTY FOR LIFE OR INVESTMENT!
