Description

Description: HOUSE of 250 m², and 600 m² garden, in the heart of Gorski kotar, next to Delnice, where you feel like you are in the forest! This house is made of wooden forms, carefully assembled by the skillful hand of an expert! The house was built in 2018, and had a very successful career in tourist rental. This wooden mountain oasis, with a comfortable, warm and intimate interior, is located in a quiet little village with a wonderful view of the mountains of Gorski Kotar and the Kupuska valley. A heated Jacuzzi, a covered terrace with a view of the beautiful mountains and the greenery of Gorski Kotar will simply elicit a sigh of relief from every traveler. The ground floor has a gym, social rooms, a tavern, a playroom for children, and provides all the elements for a hedonistic holiday in nature. This house, with its 4 bedrooms and three bathrooms, provides excellent comfortable accommodation for 8 to 12 people, and is an ideal property for family get-togethers, larger groups and vacations in untouched nature and silence. On the first floor, there is a spacious living room with a fireplace for added atmosphere, with a kitchen that has its own exit to the covered terrace and a bathroom, while the sleeping area is located on the upper level, so the sleepers always have their privacy and peace. The combination of traditional and modern, in this Alpine style, are details that perfectly fit into this fairy tale. The house is equipped with ADSL Internet, an alarm system, a fireplace in the living room and electric radiators in the rooms. ID CODE: 1058
