area and a passage to the basement, where there are devices and equipment for home maintenance. The square footage of the basement is 13 m² and there is enough space for storing seasonal items. The first floor is reached by internal stairs and there are living rooms. Large kitchen with island and dining table and living room. From the living room there is a covered terrace where there is a large fireplace. Below are the swimming pool, toilet, outdoor shower and sunbathing area. Precisely from this part, there is a wonderful view of the sea and of Velebit. The pool, dimensions 7x3, is lined with foil and filled with "sea" water (salt electrolysis instead of chlorine) and of course heated. All openings in the house are floor/ceiling and offer a lot of light. Aluminum joinery with three-layer glass, electric blinds and mosquito nets were used. Ceramic floor coverings of large dimensions and exceptional quality. The heating is via a heat pump and the entire square footage is installed under the floor. Cooling is by classic air conditioners, following the design of the entire arrangement. The yard is landscaped, mostly as a green area with Mediterranean plants and partly for parking three cars. The entire property is fenced, and in addition to the location itself, it additionally ensures privacy. The property is ready to move in IMMEDIATELY. The price includes all equipment, all furniture, pool equipment... Video surveillance and an alarm system have been installed, both of which can be controlled via a mobile application. In addition to all of the above, there are also installations for the production of hot water through solar modules on the roof. AGENT'S RECOMMENDATION!
