Description

Description:	<p>ISTRIA, SAVUDRIJA - Building plot 500 meters from the sea, opportunity for investors! Building land for the construction of residential and commercial buildings of 3700 m² in a beautiful and sought-after location is for sale. The advantage of this land is the high utilization of even 3000 square meters of BRP. The target usability can be achieved by building two semi-detached buildings with a total of 22 separate units, which, depending on the purpose of the land, can be residential and/or business. There is already a conceptual plan for the same project. An additional benefit is that the above-mentioned buildability only applies to the part that is currently under construction, and there is a part that tends to become buildable if the previous part with the same construction possibilities of 11 units, i.e. 1500 square meters of BRP, is built. All infrastructure is located on the land and has access from an asphalt road. The land is an opportunity for investors and is located near all necessary facilities. Ownership neat, no encumbrances. All documentation will be available to the customer for inspection. For all information, contact the agent. Dear clients, the agency commission is charged in accordance with the General Business Conditions: www.dux-nekretnine.hr/opci-uvjeti-poslovanja ID CODE: 32812</p>
