Description

Description: For those who are looking for complete peace on their 20,000 m² garden in an untouched part of Ravna Gora, we offer a completely renovated mountain house

with a net area of 164.50 m² that functions almost completely self-sustainably on its own. It consists of a basement, a ground floor and a high attic. In the basement there is a water tank, engine room, battery room, laundry room and tavern for socializing, and on the outside there are 2 toilets, a tool room and a gas storage room. On the ground floor, there is an open concept living room with a kitchen and dining room, a bathroom, a large wood-burning fireplace in the central part of the space, and an exit to the terrace with an enchanting view of the greenery and nature. There are three bedrooms and one bathroom in the attic. There is a large covered oven with a bread oven and a covered facility for socializing with an outdoor kitchen in the landscaped garden. On the large garden, preparations were made to fence the entire property. Characteristics of the house system: - the engine room contains a new pellet central heating of 36kw Peltec Centrometal, with a 500l storage tank (3kw heater), and a 300l consumption water tank paired with solar hot-pipe collectors (the heating is controlled via the app) - consumable water (rainwater) is filtered through UV lamps and filters - 25m³ rainwater tank with the possibility of receiving water from both sides of the roof - the house has a FN power plant with a rated power of 11kw and three Victron Multiplus II 5000W inverters in a 3-phase arrangement - the battery storage consists of 12 pieces of gel 300Ah batteries located in the battery compartment of the basement, which has its own natural ventilation on the roof - FN panels also have remotely controlled heaters for melting snow - diesel generator Hatz 2L41C of 22.5kw paired with Končar's 3F generator of 18.75kVA, and a fuel tank of 1800L; The generator is automated with a Victron FN power plant, so that in the event of a lack of sun, the diesel generator will automatically turn on to recharge the batteries and inform the owner about it via the web application. - the house is protected with permanent video surveillance and an alarm system - own WiFi through which all applications work because there is no GSM signal up there Don't miss this opportunity to win a mountain house like no other in Gorski Kotar!
