Description

Description: Labin area, building plot with sea view. We are selling a building plot with a sea view in a great location. The purpose of the land is S1-2, which means that it is possible to build up to 4 apartments plus office space, or a villa with two

residential units or even a duplex villa, so the future owner really doesn't care what to do, because everything can be built as desired without any excessive restrictions . The house can have 3 floors and be up to 9 meters high and offers an excellent and unobstructed view of the sea and the Kvarner Bay. This is a great opportunity for future investors, because this kind of terrain with these kinds of possibilities is really a rarity. For a viewing and all other inquiries, contact us through our communication channels and enjoy your future property. All the infrastructure runs along the edge of the plot so you don't need to worry about it. An excellent opportunity for a great investment, whether you want to build apartments for sale, which are critically lacking in this area, a house for family life or a villa for tourist rental, this land offers you all these possibilities, and all this with an enchanting view of the sea.
