Description

Description:	<p>For sale is a flat, clean building plot in the surroundings of Rakalj. The land has a total area of 1066.75 m², of which 66.75 m² belong to the share in the access road. The biggest advantage of this land is that it's located at the back of the construction zone. Access road is secured. All necessary infrastructure is located a few meters away from the plot. There is no sewage network, so the installation of a septic tank is necessary. The location is convenient and peaceful, with a distance of 15 km from Pula and 5 km from the sea. Due to its location, it is ideal for building a vacation home or a family house. There is a possibility to purchase multiple building plots from the same owner. Clean ownership 1/1, without encumbrances. Rakalj is the birthplace of the famous Istrian writer and economist Mijo Mirković. In the past, this settlement was known for the production of traditional Istrian pottery. Old Rakalj is located on a hill above Cape St. Nicholas in the Raša Bay. Rakalj offers the pleasure of beautiful landscapes and sea, sun, and silence away from the tourist crowds, while the beautiful numerous beaches (3 km away), hidden from view, provide a sense of freedom and intimacy.
