Description

Description:	In the bay of the southwest coast of the island of Krk, there is the city of Krk, the main settlement on the island and one of the oldest settlements in Croatia. The city of Krk has been an urban center for more than 3,000 years and is also the cultural and administrative center of the island of Krk. Krk will delight you with a series of fascinating cultural monuments, long history and beautiful beaches, and is a very

pleasant place to live as well as for vacation, even during the winter months. Kaiser Immobilien presents you a house of 70 m² in the center of the old town, in a side street with a Mediterranean atmosphere. Formerly an old workshop with an apartment - today a stone house for living and relaxing. The whole house consists of a ground floor and two floors. On the ground floor there is a studio apartment with a living-bedroom, a kitchen with a dining room, and a bathroom with a toilet and a bathtub. In the kitchen there are also stairs that lead to the basement. The staircase leads to the first floor. On the first floor there are two large bedrooms, another bathroom with toilet and shower, and from the bathroom there are stairs leading to the attic. In the attic there is a small kitchen and you enter the living-bedroom with a sitting area. From this room there is access to a terrace with a view of the roofs of Krk, with its own brick barbecue. Another staircase leads to the sunny terrace, hidden from view, with a view of the sea, the cathedral and the islands of Rab and Cres. The house does not have its own parking, but it is rare that you can take over a rented parking space (200m from the house) in the old town for €200.00/year, which provides unlimited access (up to 20m from the house) to the old town. The roof, facade, terraces, windows, ceramics and entrance door were renovated in 2018. The house is equipped with a smart home system with which the electric heaters and hot water boiler and the air conditioner in the attic can be turned on and off via a smartphone. The house is already connected to the local sewage system. The living-bedroom in the attic is air-conditioned, the other rooms do not require air conditioning. The house is partially furnished and ready to move into. With a little renovation, this interesting property can be enjoyed from day one.
