Description

Description: Kaiser Immobilien exclusively presents an attractive building plot of 450 m² with a conceptual project near the beaches and the sports center between the settlements of Nerezine and Sveti Jakov. The first floor of the future house offers a beautiful view of the sea. There is an olive grove on the property. Olive trees that would otherwise interfere with the construction of the house can be transplanted with the help of an excavator. A new house can be surrounded by centuries-old olive trees. The land is located in a quiet location and is a rare opportunity to build a house in nature and at the same time close to the infrastructure. About the place: Nerezine is located on the east coast of the island of Lošinj, 4 km south of the historic town of Osor. The settlement has a more peaceful island character, but with a developed infrastructure. There are two small hotels, a camp, a shop, several restaurants, a city port and a private marina. Clean sea without jellyfish, but also a large number

of small pebble beaches, makes Nerezine a pleasant and peaceful excursion destination. Italian and Austro-Hungarian architecture is literally pleasing to the eye. There are no big hotels or modern buildings. According to many years of measurements, the number of sunny days on the island of Lošinj is greater than in Dubrovnik, which is located much further south. The island of Lošinj, which is also called miomirisni, is said to have the healthiest climate in Croatia.
