On the west coast of Istria, with an enchanting view of the blue sea and the green landscape nearby, this real beauty is located among the villas, only 13 km from Poreč and the first beaches. The villa is located on an independent plot of 826 square meters, in a small autochthonous Istrian area that promises harmony of life and peace of everyday life. Access to the villa is provided by an asphalt road with all the infrastructure in the courtyard of the villa. This imposing, stone villa with a true Mediterranean flair is 265.86 square meters of gross surface area. The villa is surrounded by a beautiful covered terrace with a unique view of the sea with a constant breeze that will ensure your stay is pleasant. The exterior of the villa is decorated with a beautiful garden, which the owners take special care of and put a lot of effort into the appearance of the botany and landscaping of the yard. There are olive trees, fig trees, green ornamental plants, and the entire yard is surrounded by a well-kept, overgrown hedge. The biggest attraction of this beautiful environment was definitely the pond with a beautiful appearance, which is connected to the yard via a special wooden bridge. The entire yard is illuminated, as are the olive trees. In the yard there is also a wooden garden house and a summer kitchen. The entire yard is irrigated via an irrigation system. Upon entering the villa, we encounter a wonderful entrance hall carefully designed by the owner, as well as the entire residential area. There is an entrance hall, a living room with a view of the sea, a dining room with a view of the sea and the garden, a kitchen and a specially designed bedroom with its own bathroom, a guest toilet and a separate space for shoes. The entire space is decorated with special furniture and design elements, special decorative walls and other details that the owners are particularly proud of. The living room is decorated with a beautiful fireplace that will surely provide you with a wonderful winter atmosphere in the Mediterranean region. Vertical communication between the ground floor and the first floor is achieved by an internal, wooden, winding staircase. On the floor of the villa there are two more bedrooms, one a little smaller and one bigger. The larger bedroom has its own bathroom and its own imposing covered balcony with an enchanting view of the sea. The owners leave the bed and built-in wardrobe for sale. In the entire villa, the owners leave all the built-in wardrobes in the lower bedroom, complete built-in equipment, sanitary facilities and a complete kitchen. The heating system in the villa is installed via floor heating on the ground floor, and radiators on the first floor of the villa (gas central heating). The 2700 m³ gas tank is located on the plot, buried underground. The villa has the possibility of 4 parking spaces, 2 in the yard, 2 outside the yard. The
