Description

Description:

Kaiser Immobilien presents an imposing, stone villa that came new for sale. In nature itself, on a branch of the forest, on the edge of a small Istrian village, this beautiful villa is located, which offers complete peace, pleasure and privacy. The villa is located on the West coast of Istria, only ten minutes away from the small historic Istrian town of Višnjan, which is widely known for its excellent olive oils from our hardworking olive growers and the most modern and unique wine cellars of our best winemakers. The distance from the sea, the first beaches and the city of Poreč is 15 km. This imposing stone villa is located in the heart of nature on a spacious yard area of 4212 m². The entire yard is surrounded by a tall green hedge that gives complete privacy. The pool, which is 70 m² in size, fit perfectly into this spacious, beautiful yard. Inside the courtyard there is a newly installed volleyball court, with a grass surface and raised embankment area for use, there is a children's playground, a corner for a ping pong table, various swings, a barbecue and a spacious landscaped lawn with beautifully planted botanicals. The uniqueness of this yard is given by the old oak trees, which are overwhelmingly large and thus create shade and oxygen in the yard throughout the day. The villa consists of a ground floor and one floor, and another apartment of 57 m² was subsequently built in, which can be used for additional guests. The gross size of the villa is 314.09 m². In addition to the many positive and excellent characteristics that this villa has, there is also the fact that its entire layout is formed in such a way that from every room or bedroom you are in, you have direct access to the pool, to the covered terraces or to the yard, where you can enjoy a fantastic view. . On the ground floor of the villa there are three beautiful bedrooms, two rooms share one bathroom, and one room has its own bathroom. There is a spacious living room, kitchen and dining room equipped with unique wooden furniture specific to real villas. The entire lower area provides access to the yard and the pool through real wooden quality joinery. On the ground floor there is also a technical room and a guest toilet. The upper floor of the villa is connected to a beautiful stone staircase that is protected by a forged handrail. On the upper floor there is the main master room, beautifully decorated with bathrooms with old wooden furniture and a jacuzzi tub, and a wonderful covered terrace with a view of the yard, the forest and the entire nature that surrounds you. Next to the villa there is another additional apartment, equipped with a kitchen, a bedroom and a toilet. It is currently used as a storage area. The heating options are different, the entire lower part is installed with underfloor heating, with the addition of air conditioning and a fireplace. Since the upper part is covered with a wooden floor, it is heated by gas central heating via radiators, with the addition of air conditioning. The courtyard of the villa offers a handful of possibilities for use and stay considering its size, there is an outdoor grill, a covered terrace for dining,

various playgrounds and more. Considering that the villa is located next to bike paths, it offers the possibility of sports, cycling, family gatherings and long stays in nature.
