### Description

Description:	<p>Kaiser Immobilien exclusively mediates the sale of agricultural land in the immediate vicinity of the sea, on the southwestern part of the island of Krk. In terms of nature, it is a parcel of 25,673m<sup>2</sup> dominated by holm oak, wild fig and other indigenous plants, it is south-oriented and under a slight slope. The view from the land reaches all the way to Cres, Plavnik and the islands of the Rab archipelago. The land has access and is bounded by a dry wall, an ancient masonry technique without the use of mortar. There is a possibility of buying a part of the neighboring plot, so that the total area would be 30,000 m<sup>2</sup>. Also, there is a possibility of buying the entire neighboring plot of 110,000m<sup>2</sup>, first row to the sea. These plots are offered exclusively at the Kaiser Immobilien agency! The island of Krk is one of the sunniest parts of Europe with 2,500 hours of sunshine a year. The variety of relief and favorable climatic conditions have contributed to the development of approximately 1,400 different plant species. The central and western part of the island is dominated by forests, cultivated crops of Mediterranean fruits and vegetables, vineyards and olive groves. On the south-western part of the island of Krk, the coast is terraced and gently slopes towards the sea, and the climate is mild because it is protected from the north wind</p>
--------------	--

- bura. The westernmost unit consists of an area called Šotovento. Šotovento includes 10 settlements located at the foot of several hills that protect it from the storm, which is why it got its name (Italian: Soto vento – under the wind, leeward).  
ID CODE: 105-105
