Description

Description:	ISTRIA, BARBAN - Semi-detached villa with pool and maximum privacy Barban is a small picturesque medieval acropolis-type settlement in the southern part of eastern Istria, located above the Raša river valley. Well-preserved architectural
--------------	---

buildings from the Baroque and Gothic periods, frescoes and Glagolitic inscriptions, churches, palaces and city walls, the knightly game of the Ring Race, the traditional wine festival and the fig festival make Barban extremely attractive. The municipality of Barban, which has access to the sea in Raško Bay, occupies an area of 100 km². Apart from Barban, there are 31 other settlements in the beautiful greenery of Barbanština. In one of these settlements, the construction of this beautiful duplex is underway. The villa is the last in the construction zone and borders on agricultural land on two sides, thus obtaining the maximum amount of privacy. The villa is a one-story building, and it will welcome its future owners with a comfortable 82 m² of living space. The rooms in the villa are perfectly connected, and they are designed to make the stay as pleasant as possible and so that each room fulfills its role as much as possible. At the very entrance to the villa, there is a living area designed according to the "open space" system. In the living area, there is a comfortable living room, ideal for relaxing after an active day. In addition to the living room, there is also a dining room sufficient for the whole family, and there is also a beautiful kitchen. What we must point out is that the living room and dining room have access to a private summer terrace with a swimming pool. In the continuation of the space, there are two comfortable bedrooms, one of which has its own bathroom. The second bathroom is located in the hallway and is shared by all household members. Next to it is a laundry room, which is also a boiler room. As mentioned, from the living room we exit to a nice garden area of 385 m² where there is a beautiful overflow pool measuring 3.5x6.6 meters. The pool is heated, which makes it possible to use it during the cold winter days and therefore offers the possibility of extending the tourist season for those who plan to engage in tourist rentals. The garden is hidden from view, and offers everything you need for a complete outdoor party. Two parking spaces are provided for your tin pets. The villa is heated by underfloor heating with a heat pump and air conditioners. The city sewage system is used for waste water disposal. Completion of construction is planned by June 2025. The villa is sold without furniture and sanitary facilities. This interesting villa is an ideal property for family life or for tourism.
