Description

| | |
|--------------|--|
| Description: | <p>The house has a floor plan of 45 square meters and consists of an entrance, a covered terrace on the street side, a living room with a kitchen, a dining room that was arranged in the former barn, and a bathroom with a toilet on the ground floor. The first floor is reached by an internal wooden staircase, where there is a large bedroom with high ceilings with three classical windows and two skylights and a door leading to a spacious terrace created for summer enjoyment. The house is decorated with great care, with many stone details, wooden windows with shutters and wooden doors with good insulation. It is very pleasant both in summer and winter, in summer it is especially pleasant, i.e. fresh in the dining room, i.e. in the barn, and in winter it is easy to heat the entire space with two quality air conditioners, one on the ground floor and one on the first floor. At the end of 2023, Mramoterm marble slab heaters were installed for more efficient and affordable heating, so that the house is great both for a summer stay and for year-round living. The orientation is east-west and there is always enough light and airiness, and in the hot, summer months it is pleasant on the lower terrace, which is located on the eastern side, and in the afternoon the upper terrace is in the shade and you can enjoy the open space at any time. The house is fully, qualitatively and tastefully furnished and equipped and is being sold as such. It has a parking space for one larger car or two smaller ones. Construction and ownership documentation is in order. Energy certificate ID CODE: 300571006-136</p> |
