Description

Description:	<p>In addition to the plot of 777m² that is in the construction zone because there was a house there (it is plotted in the cadastre), the rest of the land is agricultural and in the P2 zone. The land is ideal for restoring agricultural potential or off-grid living. This area is far from the city and rich in natural sources of drinking water that there is no one to pollute. There are only a few households in the village that are engaged in agriculture, and the rest has been taken over by Mother Nature for trees, wild animals and wild plants. You definitely need a good car and rubber boots to come live to see arable land, pastures and meadows that no longer look like that. All that land is not in one piece, so the price is affordable, and if you want to arrange a tour, Danica Lovrić is at 099/850-6552 ID CODE: ZG72000</p>
