which makes it popular for family life. This elegant and modern apartment, located in a newer building from 2015 in the attractive location of Veruda, offers the highest quality of living. A building with an elevator and an apartment with even two garage spaces provide additional convenience. The apartment on the fourth floor radiates spaciousness and light thanks to large glass walls that let in plenty of natural light. The apartment of 67 m², with garages totaling 79 m², has been carefully designed down to the last detail. Spatially intelligently arranged, it consists of an entrance hall with a built-in wardrobe, a bathroom, two bedrooms, a practical storage room, a modern kitchen connected to the dining room and a nice living room with access to the terrace. The terrace offers a charming, open view of the surrounding village, ideal for enjoying moments of rest. Two comfortable bedrooms provide privacy and peace, while the entire space is equipped with gas central heating and top-quality Daikin air conditioning for optimal temperature control. Aluminum and PVC joinery, along with a suspended ceiling with additional insulation of 10 cm of stone wool, ensures energy efficiency and thermal insulation, which is confirmed by the A+ energy certificate. This apartment is not only visually attractive, but also extremely functional - every centimeter of space has been carefully used, including storage and practical built-in wardrobes.
