beaches and the historic center of the city. The architecture and performance quality will be in step with the latest high-rise construction technologies, where great attention is paid to the architectural solution with an emphasis on the aesthetic and functional design of the terraces, which will be decorated with special installations and lighting. The interior of the building was designed with creative and playful solutions of the local design studio, modeled on elite hotels, with a luxuriously designed corridor leading to the apartments, an impressive entrance to the building with a futuristically designed garage with storage spaces and a modernist elevator, which meets the highest construction criteria. Each apartment will have spacious and covered balconies to make staying outdoors pleasant and soothing, with an unforgettable view of the sea and the city. It is planned to build a total of 30 apartments on 4 floors with areas from 50 m² to 150 m². The apartments will be one-, two- and three-bedroom, equipped with one or two bathrooms, with an excellent layout and excellent communication between the rooms. Parking space for your vehicles is provided with 25 garage and 5 outdoor parking spaces, as well as a storage room for most of the apartments on offer. The residence will be equipped with an elevator with an entrance station in the garage to each floor. LOCATION The city of Poreč, designed since the time of the Romans, is one of the most beautiful pearls of the Adriatic Sea, located on the west coast of Istria, which today proudly represents the tourist, economic and cultural center of western Istria, and is a pleasant place to stay and live all year round. which are accompanied by many facilities for a quality urban life. TECHNICAL CHARACTERISTICS OF THE PROJECT: High energy certificate A+: thermal facade system, storey heating and cooling system with inverter air conditioners are provided in the living area of the apartment and in all rooms, while electric underfloor heating will be installed in the bathrooms. All apartments will be equipped with top quality Italian ceramics and first-class laminates. Windows and glazed doors will be made of high-quality PVC/ALU profiles glazed with double IZO glass filled with argon. Anti-burglary entrance doors with coded keys raise the level of security and ensure peace of mind. Landscaping is planned with the planting of Mediterranean plants and trees that will raise the entire project to a higher level of horticultural landscaping of this ultimate Mediterranean residence for our future buyers. *APARTMENT A007 It is a two-room apartment located on the ground floor, consisting of 2 bedrooms, kitchen, dining room, living room, bathroom and a small living room toilet, and a balcony of 13,79 m². The apartment has a garage parking space marked PGM 1, and a storage space "15" of 2,95 m² ID CODE: IS1513877
