in most other destinations on the Adriatic Sea. However, the location where this new building is located is a world unto itself. The building is located in the 1st row to the sea on the western side of Privlaka and is located next to a beautiful 8 km long coastal promenade. All apartments will offer an extraordinary panoramic view of the sea, the islands and the enchanting sunset, which is a truly special experience in this location. also, it is a quiet location that is surrounded by modern and luxurious new buildings, which really raises the profile of this part of Privlaka. There are three things, along with many others, that we would like to emphasize, namely: LOCATION, LOCATION AND LOCATION! The project of two residential buildings, each with a total of 9 residential units distributed over a total of 3 floors, is located in the 1st row to the sea and in the immediate vicinity of the center of the town and all facilities needed for a complete stay or vacation. also, there are several beautiful beaches nearby that this place offers. FLAT S2 - ground floor - Building 1 - 72.08m² Apartment S2 is located on the ground floor of a building that consists of a total of 9 apartments distributed over a total of 3 floors. The total net area is 72.08m², while its gross area is 153.55m². It has a south-western orientation. It consists of a spacious open plan kitchen, dining room, and living room (27.30m²), bedroom (15.32m²), hallway (5.40m²), fully equipped bathroom (6.15m²) and loggia (8.95m²) with which creeping views of the sea and islands that could not leave anyone indifferent. In addition, the apartment also has an uncovered terrace (9.06m²), a spacious garden (68.87m²) and one parking space. During the construction, extremely high-quality materials from renowned manufacturers and contractors are used, and the apartments are equipped with top-quality equipment, of which we highlight: - Reinforced concrete construction - 12 cm thick stripor thermal insulation - Superior ALU three-layer joinery with blackout curtains - Substrates made of first-class high-profile ceramics (120cmx80cm) - Floor heating in bathrooms and living room - Air conditioners in all rooms - And more...
