Description

Description:	<p>For sale is a fenced olive grove with drywall, which includes 30 older olive trees, located on an area of 2000 m². This olive grove represents an extraordinary opportunity to invest in olive growing with already formed trees, which enables a faster start of olive oil production. Drywall fencing provides security and protection for your olive trees, while adding rustic charm and aesthetics to this olive grove. Older olive trees are already established and it is possible for them to give a stable and continuous yield of olives. This 2,000 m² olive grove is ideal for those looking for ready-made agricultural land for olive growing, with a large number of trees and enough space for additional activities or expanding plantings.
