Description

Description: In Jelsa on the island of Hvar, a settlement with 12 luxury urban villas for individual sale and 2 buildings with 12 apartments is being built on a land area of 7,278 m2. The settlement is located 250 m away from the sea and the town center. Villa 12 is being constructed on a land area of 523.25 m2, with a net area of 200.62 m2. The land is enclosed by a wall with a height of 100-120 cm. High-quality materials and construction standards are applied in the construction of the villa. The villa will be built on two floors with a flat impermeable roof, and the wall insulation consists of 10 cm of stone wool with a ceramic facade. The ground floor of the villa includes a spacious living room, kitchen, dining room, bathroom, covered and uncovered terrace. On the first floor, there are 4 rooms, 4 bathrooms, and a laundry room. The villa comes with a pool and sunbathing area, and 2 parking spaces are provided. The villa will be equipped with a smart home system connected to an application for lighting, alarms, video surveillance, heating, and cooling. High-quality floor coverings with underfloor heating in bathrooms will be used in the interior, and each room will have an inverter smart air conditioning unit. Special attention will be given to careful horticultural landscaping. The expected completion and handover date is September 2024, providing the buyer with the opportunity to design interior details according to individual design solutions with technical support from the investor. I am available for any additional questions.
