sixty-million-year-old dinosaur footprints and mammoth bones and tusks, to the ruins of prehistoric people. Remains of a Roman villa, an oil refinery, a former amphora factory, sunken harbors and piers, and rural residences of patricians and royal families were found around the city. Right at the end of the construction zone with a view of greenery in a new neighborhood of luxury real estate, there is a new building with 4 apartments. The one we present to you is 94,70 m², is located on the 1st floor and has an excellent location, a huge private terrace where you can do everything you really want. The apartments in the building are so large and the layout is optimal, that you have the feeling that you are alone on the floor. In the apartment you will find as many as 3 bedrooms and a large living room with a kitchen from where you can go out to a large balcony, and you can go to the terrace right in front of the entrance to the apartment. The bathroom and toilet are furnished Everything in this apartment is made of the best materials and the architecture is at a high level, so there is not much to think about if you are looking for something like this, because such properties in such an area are in high demand.
