Description

Description:	<p>We present you with an opportunity to purchase a building plot located in the picturesque Žrnovnica. The land covers a total area of 611 m². The land is of regular shape, and well laid out in line with architectural planning. It's easily accessible, next to the local road and in close proximity to all the necessary infrastructure. The land is positioned between already-built houses. This means that all the utility services are readily available and provide an additional sense of community and security. In addition, such a location often implies a higher property value, which can be beneficial for future sale or rental. The ownership of the land is completely clear, without any encumbrances or restrictions. For additional information, please contact the listed agency. We will be happy to answer any additional questions and provide more information.
