Description

Description: Only 2 km from Blaz Bay is located this beautiful ground floor house of 12 m². Blaz Bay is located on the Rakalj side of the Raška Bay. The bay was once known for its mills, of which there were as many as five, at sea level, which was a rarity. The mills were powered by water from several springs in the area, and the springs were also used for drinking water. People from the surrounding villages came to Blaz for water. It is known that people even came from Sveti Lovreč with barrels loaded on donkeys or oxen to Trget, from where they reached Blaz by sea to fill

the barrels with water. Documents about the mills first appear in 1572, when Gasparo Chersainer from Kršan sold his mill to Girolamo Manzini from Labin, and they operated until the Second World War. The remains of the mills can still be seen today. The house is located on a 738 m² plot. It consists of an L-shaped hallway, connected to the living room, separating three bedrooms, two bathrooms and one toilet. The kitchen combined with the living room has been a trend for some time, which can be seen in this house, where more natural light is automatically obtained, and it also favors interaction between people, as well as easier sharing of family moments. The living room opens onto the back of the house, which borders nature. The night part is separated by three bedrooms. All bedrooms in the house are equipped with air conditioning. Two separate bathrooms, one with bath and the other with shower and separate toilet. A solar water heater is an economical alternative to a gas and electric water heater. In front of the house there is a swimming pool of 34 m² with a sun deck. In the garden there is also a barbecue area with a dining table and private parking for several cars. This type of property is an opportunity to create a home or as an investment in tourism. * GROUND FLOOR * OPEN SPACE KITCHEN AND DB * 3 BEDROOMS * 2 BATHROOMS, 1 WC * SOLAR BOILER * SWIMMING POOL 34 m² * STYROFOAM FACADE 5 cm * BIO SEPTIC PIT * ADAPTATION 2012.
