Description

Description:

TROGIR-SEGET DONJI This is a mini hotel or an apartment building in a wonderful location above the Hotel Medena with an unobstructed view of the sea. It is in a location with access to all express and local roads. The building is planned as a multifunctional building. It consists of 4 floors. On the ground floor there are two separate apartments and a dining area with kitchen, while the upper floors range from one bedroom apartments to a large three bedroom apartment. A large swimming pool on the ground floor and additional ancillary facilities make it a smaller hotel at first glance, which would suit its ideal function. Behind the plot on which the building was built, there is another usable building plot of approx. 883m², which can be used according to the buyer's wishes. The building can also be used as a "residential building" in addition to a hotel, since it is registered in the usage permit as a building with 8 apartments, which, with additional land behind it, opens up the possibility of building a building of a similar size. info::
