Description

Description: This is a mini hotel or an apartment building in a wonderful location above the

Hotel Medena with an unobstructed view of the sea. It is in a location with access to all express and local roads. The building is planned as a multifunctional building. It consists of 4 floors. On the ground floor there are two separate apartments and a dining area with kitchen, while the upper floors range from one bedroom apartments to a large three bedroom apartment. A large swimming pool on the ground floor and additional ancillary facilities make it a smaller hotel at first glance, which would suit its ideal function. Behind the plot on which the building was built, there is another usable building plot of approx. 883m2, which can be used according to the buyer's wishes. The building can also be used as a "residential building" in addition to a hotel, since it is registered in the usage permit as a building with 8 apartments, which, with additional land behind it, opens up the possibility of building a building of a similar size. ID CODE: ST755
