Description

Description:	<p>Building size 1040 m² represents an ideal opportunity to build your own home or holiday home in a quiet village not far from Pazin. A geodetic survey was made and a preliminary project for the construction of a single-story house with a basement was prepared. Electricity and water are already on the way (a request has been submitted to obtain a building permit on the neighboring plot). The proximity of the highway allows for good traffic connections to all parts of the Istrian peninsula. All the necessary content for life is located in the immediate vicinity. A city with a long and rich tradition - Pazin - is located in the very heart of the Istrian peninsula, only thirty kilometers away from the famous tourist centers. In this town, life takes place with equal intensity in winter and summer, and every first Tuesday of the month, a veritable river of curious people from all over Istria pours here, visiting the traditional Pazin Samanja.
