Numerous stone towns above the valley of the Mirna river offering history and interesting things that they can boast about. If there is a place that you will never forget, that at the same time exudes strong energy and peace, then it is definitely Vižinada. An imposing villa with a

swimming pool built into a gentle slope will be built in the autochthonous style, which will consist of a ground floor and an upper floor, from which you have an unobstructed view of the olive groves and vineyards. You enter the first floor, designed as a night area with storage, three bedrooms, each with its own bathroom, one of which has a private exit to the balcony. The ground floor is reached by external or internal stairs and is the living part of the house, it will consist of one bedroom with a bathroom, a separate toilet for guests, a storage room. The open floor plan with over 40m² and large glass walls offers a kitchen with a dining area and a spacious living room. On the same level, from the living room there is an exit to a large covered terrace with a pergola and a beautiful view of the place. From the terrace, stairs descend to a new level where there will be a sun deck with pebbles, an infinity pool of 38m² and an outdoor summer kitchen with a fireplace. Another small descent leads to a green lawn and a guest house with one bedroom, bathroom and living room with a covered terrace and barbecue. The house will use quality materials, it will be built of reinforced concrete and brick with 10 cm thermal insulation on the outside of the wall, PVC joinery will be installed. The roof has a traditional Mediterranean look, part of the facade is traditionally carved and part plastered.
