Description

Description:	<p>Beram is one of the settlements with the longest continuity of population in Istria. The research of the prehistoric necropolis on the southern slopes of Berm has shown with certainty that there was a settlement here even in the desired era. The conical hill above the fertile valley was an ideal place for a castle-type settlement, surrounded by a simple rough wall that followed the configuration of the terrain. Later Roman fortifications and medieval castles were built on the ruins of those walls. Even today in Bermo, the radial layout of the street, founded in ancient times, has been preserved. Stone house for sale, ground floor and first floor, on the ground floor there is a tavern, on the first floor there are rooms, due to the height it is possible to use the attic floor. The size of the plot is 76 m², the floor plan of the house is 35 m². This detached house is located in the very core of Beram (Nearby there is the famous one-nave cemetery church of St. Mary on Škrilina which was built in the 13th century. It contains frescoes by Vincent from Kastvo). It has all connections and is for complete adaptation. I am at your disposal for more</p>
