Description

Description: Building plot with building permit near Pula. For sale is a large building plot of 1120 square meters with all utility charges already paid and a project for an urban villa of 290 square meters. These moves eased the painstaking procedure of the

Croatian bureaucracy, which sometimes takes up to 2 years of life. It's just up to you to choose a contractor and start taking action. The land is located in a very quiet part of a small settlement near Pula and is the last in the construction zone, which gives enormous privacy. The terrain is flat and rectangular in shape with a secured access road, and all the infrastructure is right up to the land, so you can really relax and start realizing your wishes and dreams. Ideal for living, but of course also for tourist purposes. Contact us today and let us take you on a tour. ID CODE: 2010-77
