Description

| | |
|--------------|--|
| Description: | <p>On the eastern coast of the beautiful Istrian peninsula, we are selling a wonderfully hidden building plot with a view of the sea. The access to the land itself is neat, while all the essential infrastructure is right next to the field, and the land has a gentle slope towards the southwest, which for this reason gives an even more ideal view towards the sea, i.e. the Raš Bay, where there are coves with beautiful beaches, and the distance to them is less than 1 km. The land is in a pleasantly hidden area, which gives it an ideal opportunity for the privacy of family life, and of course also a holiday home. Along with the land, we also attach several photos of the conceptual project. Paperwork is in order and ownership is 1/1. We are available for any additional questions! ID CODE: 300041110-92</p> |
