During the works, the customer can create certain elements himself, for example, he can choose ceramics, or decide whether he wants laminate or ceramics, what colors, etc. Today, we know Krk as a tourist destination of exceptional cultural and artistic heritage, where the ancient Splendidissima Civitas Curitarum (the splendid city of the people of Krk) lives in harmony with the bustling character of modern times. The ideal geographical position is an advantage that the island of Krk used to value very well as a tourist. Good traffic connections have made the island of Krk a favorite excursion destination, but also the other way around: meaningful one-day trips can be made from the island. For example, a trip to the Plitvice Lakes and North Velebit National Parks. True explorers will definitely want to get to know Rijeka - the center of the Primorsko Goranska County, and they will connect their stay in Rijeka with an unavoidable visit to Opatija - the tourist "pearl of the Adriatic". A one-day trip to Istria will be very interesting, where we recommend staying in its central part rather than on the coast! Finally, the island of Krk is connected by a ferry line to three islands: Rab, Cres, Lošinj, which can also become destinations for your day trips. The location of the island of Krk in the far north of the Adriatic makes it the "first" island, that is, the closest island for all visitors who come from the continent and are looking for a Mediterranean atmosphere. To the exceptionally good natural geographical position of the island of Krk, a strategic architectural object has been added: the Krk bridge - the bridge that connects the island of Krk to the mainland. The Rijeka airport, located on the island of Krk, connects the island of Krk with the cities of

Europe. As an easily accessible island, Krk is certainly a great choice for all tourists looking for an escape from the crowds, bustle and stress of big cities. Kornić is a small Mediterranean town surrounded by cultivated olive groves, located 5 km from the town of Krk and 3 km from Punat. It is characterized by a beautiful view of Puntarska draga, a sea bay in the middle of which is located the islet of Košljun and the Punat marina. The nearest beach, Dunat, was named after the church of St. Dunata, which dates from the period between the 9th and 12th centuries, and is located right next to the beach. In the area of Dunat, there is also an attractive sports facility, the Cable Krk Wakeboard Center as well as the Diving Center Krk. In Kornić there is a parish church of St. Jakov from the 19th century, and Etno kuća Kornić, renovated in 2008 as a local museum, whose ethnographic collection includes as many as 1,300 items from Krk's past. Kornić is also known for its tradition of sheep farming and olive growing, and offers its guests an active vacation on marked hiking trails with a beautiful view of the sea and landscaped ancient olive groves.
