Description

Description:	<p>ISTRIA, LABIN - Business space in the old town center The town of Labin is located on the east coast of Istria, through which the state road that connects Rijeka and Pula passes. Due to its age, durability and historical significance, it should have become a big city by today, but it remained a lovely small town whose past is the generator of future development - the Labin mine, the project of the Underground City, is the only mine at sea in which there is an underground mine at +30 meters above sea level an infrastructure of inestimable value, completely safe because it is carved in living rock. It is 5 kilometers from the tourist resort of Rabac. Stari Grad is located on a dominant hill overlooking the Kvarner coast, and at its foot is Podlabin, where the streets intersect at right angles, creating the appearance of perfect order and regularity. In this medieval town surrounded by well-preserved walls, with beautiful baroque palaces, cultural landmarks and a rich and turbulent past, we mediate the leasing of business premises. The spacious office space was used as a service activity and provides significant space for future business activities. Dear clients, the agency commission is charged in accordance</p>
